SQL PROJECT – CHINOOK DB

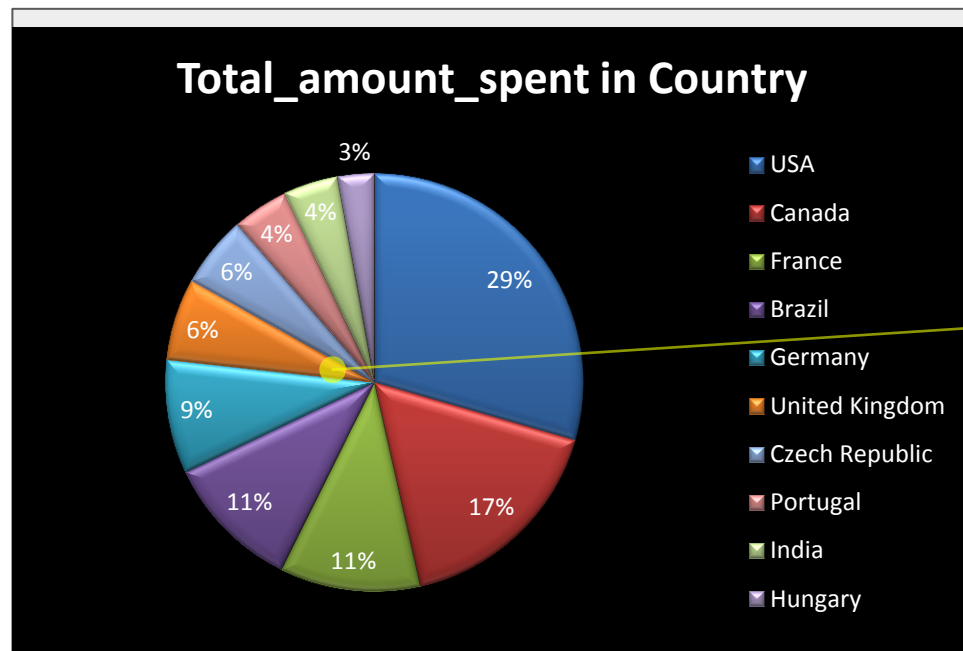

NAME: Sikiru Abdulahi

: Awesome: Overall, the work is amazing. Good job generating interesting insights with the queries, great visualizations and in-depth analysis. The slide presentation is perfect! Please keep doing this great work! This shows a good level of professionalism.

Which country has the highest top ten customers and how much was spent?

: Awesome: Good work providing appropriate title to every slide. This way, readers have an overview of what each insight is all about just from the heading.

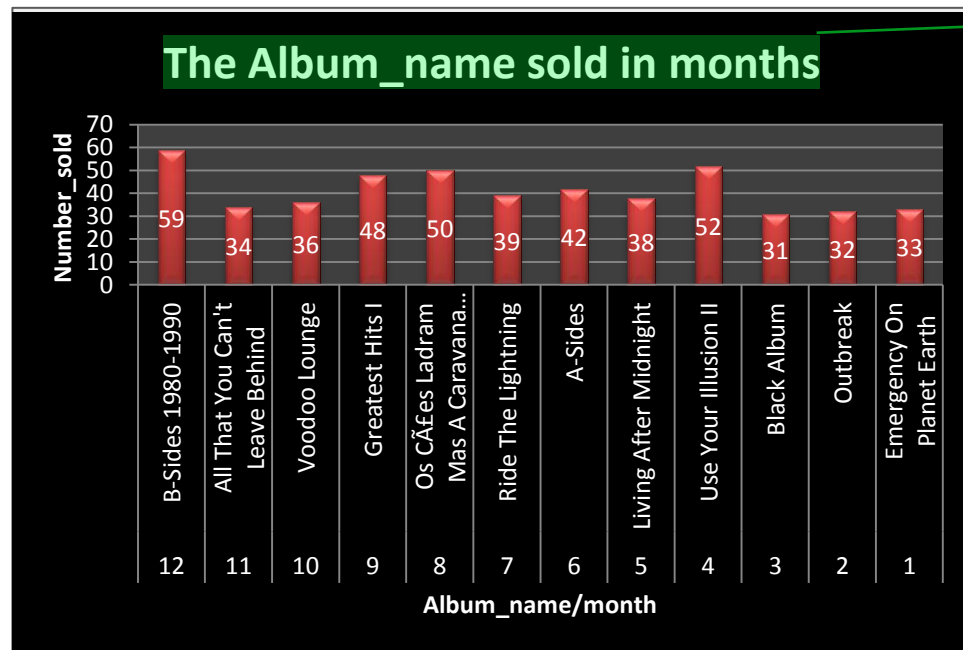

The Pie chart shown for the proportion of top ten customers in countries and the amount spent.

Among all countries, USA has the highest customers that spend more than other countries. USA has 29%, followed by Canada with 17% while customers in Hungary is the least among the top ten with 3%.

: Suggestion: Nice plot here. However, I think when we have more than 4 segments in a pie chart, it is always better to use say a column chart to make it easier to interpret. Good job either ways, the plot looks clean and understandable.

What is the album name that sold most in months of the year in USA and by how many?

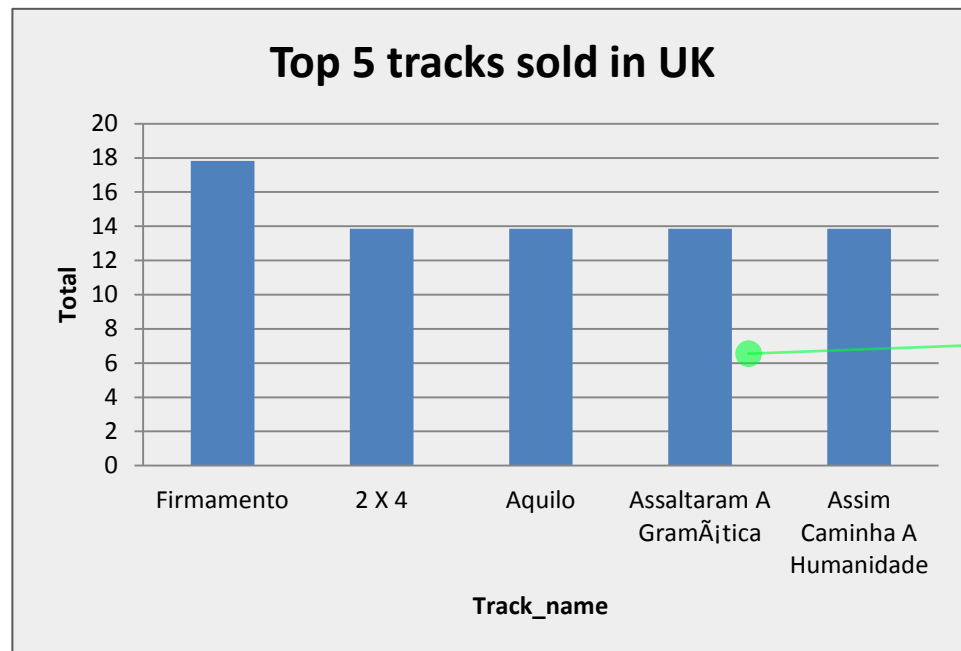

The bar chart shown the name and numbers of album sold most in months of the year in USA.

In the months of the year, the 12th months, recorded the highest sale with album title 'B-Sides 1980-1990'. Second to the months with highest album sold was in 4th with 52 album sold. The month with least album sold was in 3rd month with title, 'Black Album' having 31 sold.

: Awesome: Good chart title here, this is amazing work. This gives an overview of what the plot is solving.

: Awesome: This is great, I really like that you provided descriptive details for each visualization. The analysis is very detailed Nicely done. This shows you pay attention to details.

Which top 5 tracks is the highest sold in the album of song in the United Kingdom?

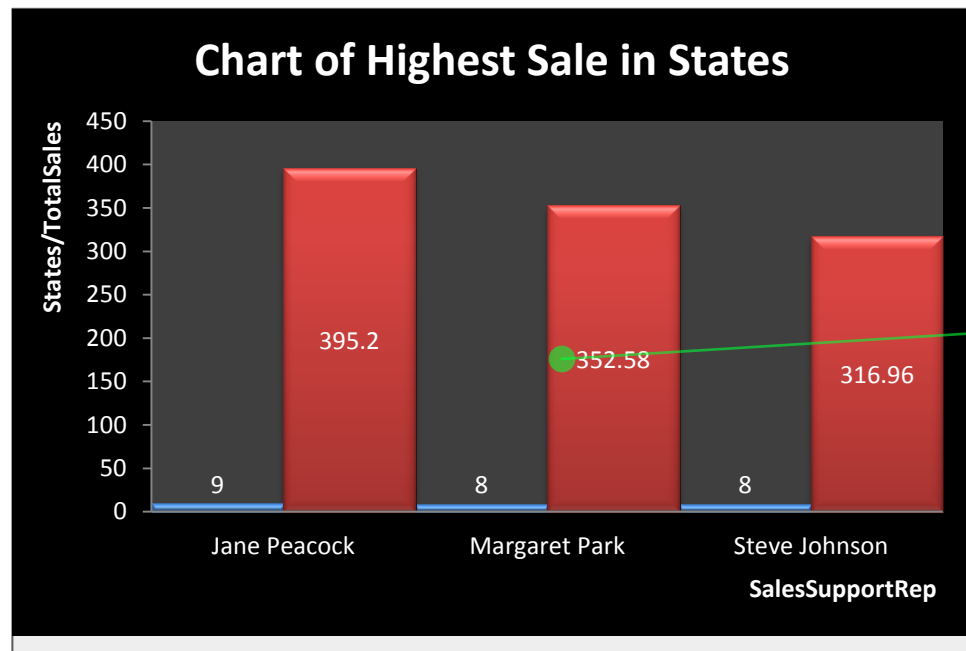

Here the bar chart shown the top 5 tracks highest sold in United Kingdom.

The top five tracks in high demand in United Kingdom are Firmamento, 2 X 4, Aquilo, Assaltaram A Gramática and Assim Caminha A Humanidade.

Firmamento track is most in demand while the other four have equal demand.

: Awesome: Great job with this plot. The insight is very interesting and very specific to UK. This is good work.

In how many states does each support agent have the highest sales?

The bar chart here shown the number of states with the highest sale by support agent.

There are 25 states covered by three sales support representatives.

Jane Peacock sales support agent covered the highest which is nine states with 395.2 sales while the other two covered the same number of states but with different number of sales.

: Awesome: Good job with this plot showing Jane peacock as the most proactive sales rep. This is detailed. I really admire the skills demonstrated in this submission with the plots.
